

Instruction leaflet for the delivery of waste for the chemical-physical waste treatment plant (CPA)

Disposal facility: CPA Hamburg - Delivery conditions

The below is to communicate to you our delivery conditions for waste for acceptance at

CPA Hamburg

in order to ensure delivery processes are simple and rapid.

The delivery form is laid out in a binding manner in the offer or certificate of disposal/notification and is oriented by the properties, composition and quantity of waste, as well as the technical capabilities of the plant. It is thus imperative that it be complied with.

The waste must correspond in its entirety to the information provided to us (safety data sheets, descriptions, photos, analyses, etc.). Deviations may be invoiced with costs. Further rights remain reserved

Cleaning/rinsing of vehicles is possible only after consultation and will be charged to the deliverer. AVG does not issue cleaning certificates.

If deviations from the delivery form are unavoidable, please urgently get in touch with your sales contact before delivery. For all other questions on waste disposal, our sales contacts are also available to you.

Delivery is to be made to CPA Hamburg

Delivery dates are to be reported in advance to the scheduling department:

Phone: 0049 - 40 - 733 51-0 Email: Disposition@avg-hamburg.de
Fax: 0049 - 40 - 732 51 64

Delivery hours (incl. unloading time): Mo – Th from 7:00 a.m. to 4:00 p.m.
Fr from 7:00 a.m. to 1:00 p.m.

You should note on the registration form whether empty IBC containers are to be returned or cleaned and/or disposed of (at cost).

If our sales contacts have sent you an “approval number” for special waste, this must be given on registration or in the registration form and entered on the accompanying certificate in the box “free for notes” or with notifications on the M/T form.

In addition, our General terms and conditions (version of: 01.06.2022) and the leaflets in the version valid on the date of delivery apply (the documents can be found on our website www.indaver.de under “Service”). If necessary, you can always request documents to be sent.

1. Definition

Waste for the CPA within the meaning of this information leaflet is liquid, inorganic waste from industry, commerce, collection and collection of harmful materials (e.g. acids, baths containing heavy metals, washing water, concentrates and semi-concentrates).

2. Delivery form

- Suction tanker, IBC/ASF containers, barrels
- Emptied vehicles cannot be stamped
- The following criteria apply in the event of delivery in IBC/ASF containers or barrels:
 - All IBC/ASF containers and barrels must be tightly closed, clean on the outside, intact, approved and suitable for the contents. The size of the bunghole must be greater than 5 cm.
 - Every IBC/ASF container and barrel must be clearly, visibly and permanently labelled with the following information:
 - Producer
 - Notification No.
 - Type of waste/approval No. if necessary
 - Any extraneous lettering or inapplicable hazard labels are to be removed
 - The barrels are to be delivered on fully intact, stable, standard wooden pallets. Secure adequately to ensure hazard-free unloading and handling. Stacked height: max. 1m
 - Barrels cannot be delivered in ASP containers
 - Only barrels of the same size and notification may be assembled on each pallet.
 - The delivery must be made using vehicles that allow hazard-free unloading by forklift (no delivery in roll-off containers or skips)
 - For technical reasons, rolling hoop drums and barrels with side bungs cannot be accepted. Exceptions can be made in individual cases with prior agreement
 - EWC code
 - Hazardous substance labelling as per GHS/CLP
 - Correct ADR labels

3. Criteria for waste for the CPA

General conditions of acceptance

- Pumpable, free of mechanical impurities (screws, gloves, etc.)
- Temperature: < 35 °C
- The composition of all the waste must correspond to the sample made available to us

Basic chemical qualities

If not otherwise agreed in the offer/certificate of disposal, the following basic qualities apply (parameters not listed must be queried separately):

Heavy metals:	<	10	mg/l
Mercury, arsenic:	<	0.05	mg/l
Chromate:	<	0.1	mg/l
Nitrite:	<	50	mg/l
Sulphate:	<	1500	mg/l
Sludge:	<	5	Wt.%
Cyanide:	<	0.1	mg/l

Special details

The delivery of waste/materials containing the following substances/with the following properties requires our express approval (regardless of the above basic qualities):

- highly odorous or malodorous waste/substances
- Hydrofluoric acid-containing waste
- Waste subject to other legal requirements
- Waste that generates gas (e.g. fuming nitric/hydrochloric acid)

4. Excluded waste

- Waste containing organic impurities (oils, fats, organic solvents or other organic substances). It must be ensured that the means of transport do not contain any impurities of this kind
- Waste containing complexing agents
