

Amendment for the request of acceptance for waste in drums or IBC with properties classified as oxidizing and/or liable to spontaneous combustion

EWC-No:	Notification-No.		Waste description	
Number of drums	Drum size	Number of pallets	ADR - Class	
				4.2 substances liable to spontaneous combustion
				5.1 oxidizing substances
				5.2 organic peroxides

Please pay attention on the following:

All drums of the above mentioned classes have to be packed on separate pallets, to ensure an easy access to it.

We also beg for your understanding, that we might have to restrict the amount of drums with these classes to be taken into AVG per load, if our daily amount is exceeded.

Please contact your key account for any questions.
